Handbook of Terminology Management: Application-oriented terminology management

Sue Ellen Wright 1997 The Handbook of Terminology Management is a unique work designed to meet the practical needs of terminologists, translators, lexicographers, subject specialists (e.g., engineers, medical professionals, etc.), standardizers and others who

have to solve terminological problems in their daily work. In more than 900 pages, the Handbook brings together contributions from approximately 50 expert authorities in the field. The Handbook covers a broad range of topics integrated from an international perspective and treats such fundamental issues as: practical methods of terminology management; creation and use of terminological tools (terminology databases, on-line dictionaries, etc.); terminological applications. The high level of expertise provided by the contributors, combined with the wide range of perspectives they represent, results in a thorough coverage of all facets of a burgeoning field. The lay-out of the Handbook is specially designed for quick and for cross reference, with hypertext and an extensive index. See also "Handbook of Terminology Management" set (volumes 1 and 2).

Vocabulary Assessment to Support Instruction

Margaret G. McKeown 2017-06-19 Vocabulary development is essential for learning, but conventional vocabulary assessments lack the range and flexibility to

support K-12 classroom teachers in making instructional decisions.

Drawing on linguistics, educational psychology, and educational measurement, this book offers a fresh perspective on word learning and describes powerful, precise assessment strategies. Guidelines are presented for selecting which words to teach, evaluating the depth and richness of students' word knowledge and their ability to apply it in complex contexts, designing effective instructional practices, and using technology to create adaptive and scalable assessments. User-friendly features include sample test items, classroom examples, a glossary, and suggested print and online resources.
